Werner Amsler
Amsler Equipment

Werner,

I just wanted to let you know that we appreciate the support on the L22X. The prompt attention to questions concerning the equipment has been very helpful. The machine has been running now for over two years and I can say that it has been the most trouble free RHSB molding machine we have.

Thanks Again,

LaVerne Esau
President
Container Services, Inc.

*They also have
Sidel, Dynaplast
& Magic.
CWA.*
